UNIFIL Statement: IDF notified UNIFIL of their intention to undertake limited ground incursions into Lebanon

UNIFIL stated the following in a statement released on October 1, 2024: "Yesterday, the IDF notified UNIFIL of their intention to undertake limited ground incursions into Lebanon. Despite this dangerous development, peacekeepers remain in position. We are regularly adjusting our posture and activities, and we have contingency plans ready to activate if absolutely necessary. Peacekeeper safety and security is paramount, and all actors are reminded of their obligation to respect it. Any crossing into Lebanon is in violation of Lebanese sovereignty and territorial integrity, and a violation of resolution 1701. We urge all actors to step back from such escalatory acts, which will only lead to more violence and more bloodshed. The price of continuing the current course of action is too high. Civilians must be protected, civilian infrastructure must not be targeted and International law must be respected. We strongly urge the parties to recommit to Security Council resolutions and 1701 (2006) as the only viable solution to bring back stability in this region."
